### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas E. Kocovsky, Jr. on 01/04/07.

The application has been amended as follows: The Phrase, "gas gap" in line 10 of claims 3 and 5 have been changed to ----gap gas-----.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: Claims 1, 3 and 5 are allowable because the prior art of record fails to disclose or suggest teach the recited material having a high thermal capacity embedded in at least one surface that define the gap to define a second regenerator (see claim 1); a gas gap regenerator disposed in the thermal communication with the gap, the gap gas regenerator being accommodated in a hollow chamber which is located in a housing of the displacing member, the hollow chamber being linked to the gap through axially spaced radial bores and a seal located between the radial bores such that pressure drop across the seal is greater than a pressure drop across the gap gas generator. (see claim 5). Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
